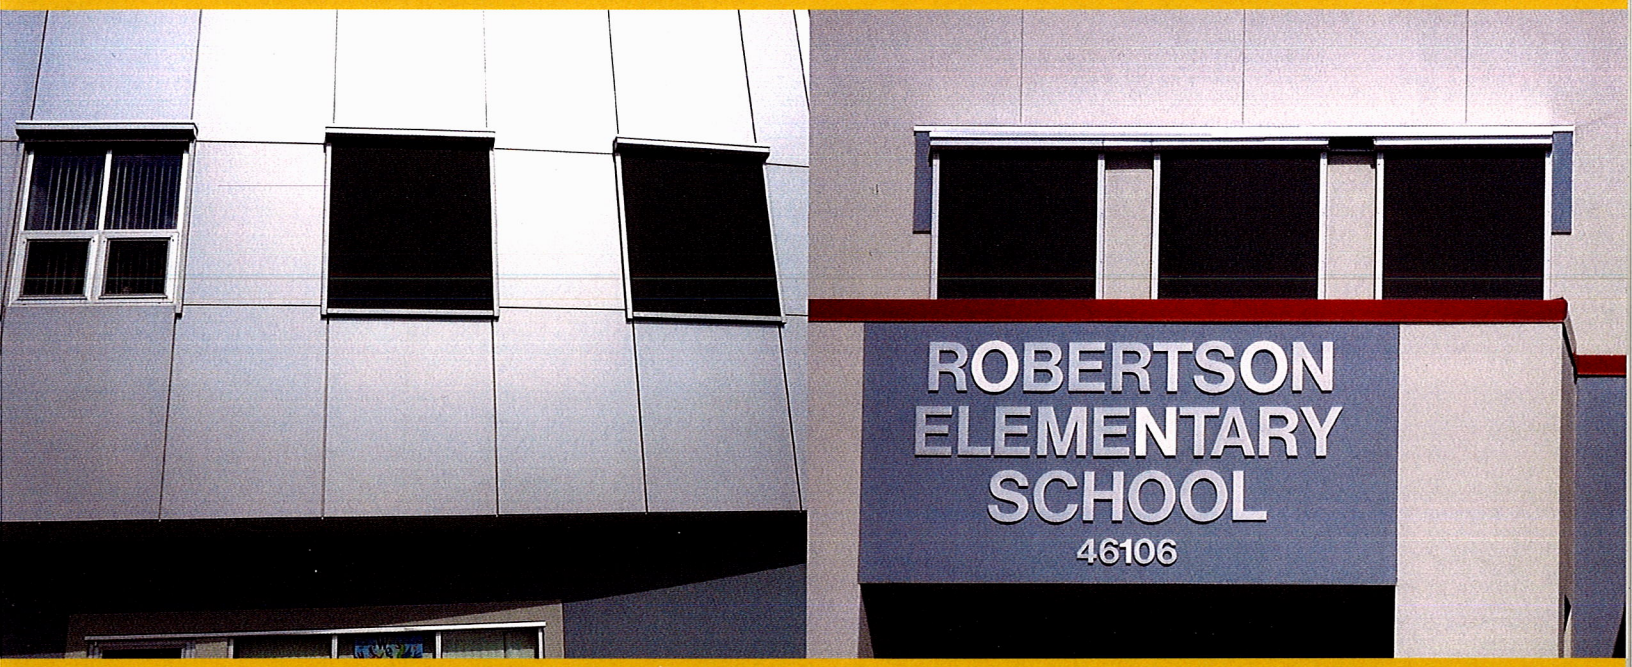
Habitat Screens for Schools



Reduce Energy Costs and Create a Comfortable School Environment

STOP 95% OF THE SUN'S HARMFUL RAYS FROM REACHING YOUR SCHOOL'S WINDOWS

Habitat Screens are a retractable, energy efficient and attractive alternative to traditional interior blinds and window treatments. Installed on the outside of windows, Habitat Screens are designed to absorb the sun's heat and glare before it reaches the glass. Habitat Screens are custom made up to 20' wide and 14' tall.

Discover the Benefits:

- **Creates completely natural light**
- **Preserves your view**
- **Harvests the perfect amount of the sun's natural heat and light automatically**

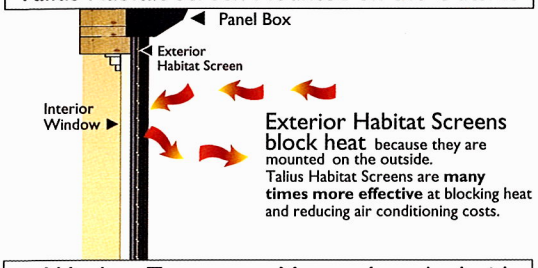
The Informed Choice for Creating Energy Efficient Schools

"Anyone with south or west facing windows would benefit from Talius Habitat Screens. Since our Habitat Screens were installed, our schools heat and air conditioning costs have been greatly reduced."

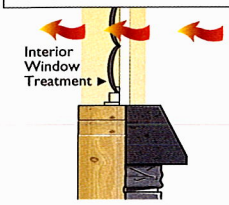
Patrick Morphy,
Emerson High School

Talius Habitat Screen Mounted on the Outside



Exterior Habitat Screens block heat because they are mounted on the outside. Talius Habitat Screens are **many times more effective** at blocking heat and reducing air conditioning costs.

vs. Window Treatments Mounted on the Inside



Interior Window Treatments are far less effective because they let heat into your home, and allow solar heat gain.

Habitat Screens vs. Interior Window Treatments

	Habitat Screens	Interior Blinds	Window Tinting	Interior Screens
Blocks Heat	●			
Preserves Your View	●		●	
Saves Energy	●			
Exterior Mounted	●			
Retractable	●	●		●
Blocks UV Rays	●	●	●	●
Invisible from Inside	●		●	
Easy to Clean	●		●	
Insect Screen	●			
Wind Resistant	●			
Daytime Privacy	●	●	●	●

EASY OPERATION

Habitat Screens are easily operated with motorized convenience. Talius also offers remote controls, sun sensors and timers to offer enhanced energy efficiency.

CHOOSE FROM A VARIETY OF COLOURS

Standard panel box, guide rail and bottom profile colors:

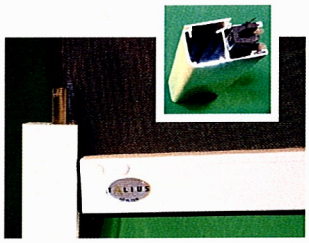
white *beige* *brown* *silver*

Talius also offers over 1800 custom paint options.

UNIQUE FABRIC AND EDGE RETENTION SYSTEM

5% openness Satine®

Talius Habitat Screens are made using Thermoscreen®, a unique fabric woven from fibreglass and coated with PVC pigments. Thermoscreen is available in 30 different colours to provide the exact design to suit your needs.



Talius' unique edge retention prevents the screen from blowing out of the guide rails on windy days, eliminates light gaps, and keeps insects out

Quality Products and Service You Can Trust

You deserve the best, and Talius ensures that your Habitat Screen will exceed your expectations of quality, performance and style. For over 30 years, the Talius brand has been synonymous with quality and service. We take pride in developing and manufacturing the finest products to provide you with exceptional value. All Talius Habitat Screens feature a 5-year manufacturer's limited warranty.
